FINAL RESULTS

CENTRAL OHIO — BOYS TENNIS RESULTS

This document is a summary of the 2009 boys season. It includes different "views" of the data that was included in the Columbus Dispatch, which was the main source of information for this document. The different "views" include the:

- Team Records - wins and losses of each team
- Team Results - the team results for every match
- Individual Performance - the results of every singles and doubles match throughout the season. Note that when a specific court (i.e. 1st singles) position could not be identified, then the data was included at the end of the school results under the heading, "Sing."
- Top Singles - the top singles players in Central Ohio
- Court Comparison - performance graph of various teams' singles and doubles courts throughout the season. Note that these comparisons included the results for just dual matches.

High school coaches may find this to be useful to:

- Track their specific players throughout the season
- Double check their opposing coaches' lineups
- Identify teams of similar ability that they can schedule for next year

Parents may find this useful to:

- See how their son performed throughout the season
- Compare how their son's competition performed during the season
- Use for scrapbooking

College coaches may want to review this to identify potential recruits.

Even though care was taken to enter this information accurately, there is **no guarantee** that this information is correct. The sources of this information could be inaccurate or the data may have been input incorrectly. There are also many spelling errors of the match participants in the Columbus Dispatch. These errors are largely not corrected. Note that there are also omissions because some coaches do not report all of their results to the Dispatch.

Please note that there are a few differences between what I have recorded and what you saw in the Columbus Dispatch. They include:

- Matches that ended prematurely (such as with a retirement or injury) are shown as the match ended (i.e. 6-2, 3-2).
- Matches that included a pro-set are shown as 10-3, 0-0 or 8-3, 0-0.
- Many of the various, mid-season weekend tournaments are not included.
- There is no differentiation between OTCA or regular season matches.
- When teams forfeit a match (i.e. insufficient players), the "winning team" will receive a winning score of 0-0, 0-0.

I included some teams that played Columbus area teams, but the reports do not show their entire schedule (i.e. Chillicothe).

Stacking remains an issue for some programs. Please refer to the OHSAA rules below for clarifications.

To inform me of any substantial errors that are different from what the Columbus Dispatch published, please contact ScottGerber “at” cs “dot” com.

TENNIS 2008-09
13. TENNIS—BOYS AND GIRLS
A. GENERAL REGULATIONS
1) Interscholastic Participation

.
.

1.11) Singles players must play in order of team rank. The better doubles team must play No. 1 doubles. This rule applies to injury or illness preceding a match. Forfeiting a point for a missing player’s position is not allowed. If the No. 1 player cannot compete, the regular No. 2 player plays at No. 1, the regular No. 3 player plays at No. 2, and the substitute is placed at No. 3. “Stacking” is not allowed under any circumstances.
